EDUCATIONAL OUTCOME	Participation in sports can help students in a multitude of ways. Physical activity can not only contribute to improving students' physical health, but it can also aid in developing social skills and improving mental health, as well as leading to better academic outcomes and school completion. Students who participate in sports during the school years tend to have a positive attitude towards physical activity which does not diminish as they age.			

During the event, family members are welcome to watch their children participate. However, we ask that parents/family members always remain in the spectator's area (due to safety reasons). Students will have a common lunch break from 11:10am - 11:30am (outside of the activities zone) - during this time children can spend time with their families.

If you have any questions, please contact your classroom teacher.

Kind Regards,
K-2 Teachers
