

MERIT AWARDS (CHANGES)

The PBL team have reviewed our current MERIT AWARD SYSTEM.

We have made a few changes which will make it easier for your children to attain Bronze, Silver and Gold certificates and badges.

Until now students have needed 2 bronze certificates to gain their badge and bronze chip. We have changed this to 1 bronze certificate = badge and bronze chip, 1 silver certificate= silver chip and 1 gold certificate = gold chip.

If students have achieved all of these levels, they are then able to commence working towards their second badge.

****Mini whites, Character Education and Quality work certificates will all be the same size as a mini-white from next term.**

They will all count as a mini-white in our revamped merit award system.

From now on:

3 mini-whites= white award

3 white awards= bronze certificate and badge with bronze chip

**** This is repeated for silver and gold certificates and chips for badges**

****Please note that all old green merit awards, mini whites, Character Education certificates and Quality work awards will still count!**

Don't forget to keep all certificates and hand them into the office so that we can reward your children! White awards will be handed out at K-2 and 3-6 assemblies. Bronze, silver and gold awards/badges will be handed out at K-6 assemblies.

Below is a flow chart to explain the system
